DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 6/11/2007 has been entered.
2. Claims 1-25 and 27-40 are canceled without prejudice or disclaimer.
3. Claims 26 and 41-54 are pending and examine on the merits.

Claim Rejections Maintained - 35 USC § 103

4. The rejection of claims 26 and 41-54 under 35 USC § 103(a) as being obvious over Schmidt *et al* in view of Sun *et al* and Hiserodt *et al* is maintained for the reasons of record. Applicant argues that the cited references do not render obvious the instantly claimed invention. In particular, applicant contends that the primary reference of Schmidt *et al* teaches away from the claimed invention. Applicant relies on a recitation from paragraph [0021] which states "In contrast to approaches in which ... the antigen is presented via transfection with DNA coding for the protein, *the invention* is to provide a vaccine which triggers an efficient immune response whilst being simpler to manufacture." Applicant's arguments have been carefully considered but are not deemed persuasive to overcome the rejection of record.

The rationale to modify or combine the prior art does not have to be expressly stated in the prior art; the rationale may be expressly or impliedly contained in the prior art or it may be reasoned from knowledge generally available to one of ordinary skill in the art, established scientific principles, or legal precedent established by prior case law. In *re Fine*, 837 F.2d 1071, 5 USPQ2d 1596 (Fed. Cir. 1988). Moreover, the reason or motivation to modify the reference may often suggest what the inventor has done, but for a different purpose or to solve a different problem. It is not necessary that the prior art suggest the combination to achieve the same advantage or result discovered by applicant. >See, e.g., In *re Kahn*, 441 F.3d 977, 987, 78 USPQ2d 1329, 1336 (Fed. Cir. 2006) (motivation question arises in the context of the general problem confronting the inventor rather than the specific problem solved by the invention). And finally, even if a reference discloses an inoperative device, it is prior art for all that it teaches." *Beckman Instruments v. LKB Produkter AB*, 892 F.2d 1547, 1551, 13 USPQ2d 1301, 1304 (Fed. Cir. 1989). In the instant case, applicant does not deny that the claimed invention is not taught by the cited references, but rather argues that the main purpose of the *Schmidt et al* references teaches away from the instantly claimed invention. However, *Schmidt et al* teaches and makes obvious the instantly claimed invention in combination with the cited reference of *Sun et al* and *Hiserodt et al*. Applicant may not pick apart a rejection and rely on the individual teachings of each references, rather it is the combination of the references which render obvious the instantly claimed invention.

Therefore, the rejection of claims is maintained for the reasons of record.

Conclusion

No claim is allowed.

This is a continuation of applicant's earlier Application No. 09/522716. All claims are drawn to the same invention claimed in the earlier application and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the earlier application. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action in this case. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no, however, event will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
